open night

All welcome

A 16 inch primary mirror covered in polymers during a cleaning process

University of St Andrews Observatory

Buchanan Gardens, St Andrews KY16 9LZ

Saturday 28th of November - 6pm to 9pm

Meet the local astronomers, learn about the observatory telescopes and see the James Gregory Telescope in action. Observe planets, star clusters and galaxies (weather permitting).

With initial designs of 'Frankenstein's Telescope' - a telescope back from the dead. Plus the history of a former observatory, and its original 16 inch twin telescope. All at the Twin Dome.

Free Entry
